

NAVY PLANE PLUNGES INTO OCEAN: 6 MEN LOST

WILFUL WASTE NOW TORTURES "NEW DEALERS"

—GOV. TALMADGE

Says President Hears Bleats of Bleeding Lambs and Cattle

Gov. Eugene Talmadge of Georgia brought his campaign against NRA and AAA to the Midwest this week and opened his drive in two crowded meetings in Chicago, one composed of lawyers of the Chicago Bar Assn., and the other University of Chicago students. His address to the lawyers was largely on the processing tax and its results, while to the students he stressed Americanism against "NRA-ism."

The governor, who is causing almost as much distress to the Roosevelt-Democrats in the south as Huey Long is, described the recent farmers' "pilgrimage" in Washington as a "mock meeting."

"What happened at this mock meeting?" he asked at the bar association.

"The President himself came out to address the farmers in Washington, and said these words: 'It is your duty and mine to continue to educate the people of this country to the fact that adjustment means not only adjustment downward but adjustment upward. It is high time for us to repeat that we have not wastefully destroyed food in any form.'

"When the President of the United States spoke those words, the squeal and flutter of dying pigs, the bleat of bleeding lambs, and the bellow of dying calves was torturing his soul!"

"Wilful Waste Makes Want" "An Almighty God is looking down on this travesty. Wilful waste makes want. You heard your grandmothers say that, and it is true.

"The brain trusters at Washington feel the avenging sword. They know that they have violated the laws of God and nature. They also know that they have made millions of people in this country stoop to beggary who did not want to. They know that they are breaking the pride and disrupting the souls of strong American people.

"What policy are they turning to now? They are turning to a policy of bribery—hiring any one who will preach their false propaganda—having the mockery of seeing that the farmers lay their plow handles down and come to Washington to brag on this era of scarcity!"

May Is Planting Month

"Farmers stopping work and tramping off to Washington in the middle of May! It is just about the same comparison as saying that the restaurant keeper and the hot dog vendor will close up shop and go visiting on the day of a big circus. May is the month to plant, stir your crop, and kill the grass—and every farmer worthy of the name knows that if he does not 'stick to his knitting' in May, he will not gather in the fall.

"Wallace may fool a few farmers that have been getting checks, but the farmers have a lot of time to think, and they are the hardest people in this country to fool. Give them time.

"There is not a word in the Constitution guaranteeing the right of the government in business. The government can't run farming or any other kind of business. They pamper weaklings and crooks.

"Thank God the Supreme Court is getting a little backbone.

Sorry for Relief Clients "My heart goes out to a great majority of the men and women of this country who have been forced on the relief rolls by the cruel policy of producing scarcity in this country.

"But I have no sympathy for the officials of relief, who sit back in the cool shade and draw from \$5,000 per year up to give away other people's money. Why, it takes 7,000 people in Washington just to write checks!"

"Their job is to look wise and talk in an unknown tongue. If you ask them what they mean they answer by a good deal of cursing. It takes people biggity when you give them a job squandering other people's money.

"But, you say: 'Why such a policy?' There's a method in their madness. The NRA-ists wish to get the people hungry, afraid, make them take the gifts and the dole, in order to make them see the gov-

Flight Cracks Up

Grand Isle, La., May 23.—(AP)—Randi Lerhol's flight from civilization has cracked up. Unless aid is given her, the natives of this romantic island believe she will starve to death before the year is out.

Three years ago, "Miss Randi" as the islanders know her, threw aside her scrubbing mops in Superior, Wis.

She bought a rowboat with a small cabin and started floating down the Mississippi to cure her rheumatism in the warm southern sun and to get away from "money people." She had little money but she believed her destination was a veritable Garden of Eden, where she could live on her boat and eat seafood and fruit for the taking. Here she has lived alone for three years.

"I want to be left alone," she will mumble to the natives. "Go away!"

"I guess I'll die here because I can't get away," she told the interviewer in a slow drawl. "I have been living on fish and crabs but sometimes I don't eat."

DEMOCRATS AIM FIRE AT WOMAN

Mrs. Lottie O'Neill Made Target in "Spanking" Tactics of House

Springfield, Ill., May 23.—(AP)—Republicans stopped their filibuster but the Democratic house majority was in an angry mood today.

Balked for weeks by a militant Republican minority, finally forced to adopt the sales tax-relief bill as a strictly party measure and repeatedly "put on the spot" by opposition strategy, the majority, headed by its 28-year-old Benjamin J. Adamowski of Chicago, has determined to punish those it holds responsible for its discomfiture.

It set about the business immediately after yesterday's roll call on the sales tax-relief bill from which they had been forced to strip the emergency clause when, for the fifth time, they had been unable to obtain minority support.

It was still engaged in the business of "spanking" those who had participated in the filibuster and had engaged in violent criticism of the Illinois Emergency Relief Commission, the governor and the president when it ended the day's session late yesterday.

The majority's activities brought from LeRoy Green of Rockford, Republican floor leader, the charge: "Disgraceful!" Says Green.

"In the most disgraceful scene that has ever taken place on the floor of the House of Representatives, sustained by the Speaker by rulings clearly in violation of parliamentary procedure and the rules of the house, the Democratic majority definitely killed these measures x x x."

Green had particular reference to the permanent registration bill, sponsored by the Illinois League of Women Voters, which had caused the filibuster.

This bill, which the League claims provides a more economical method of registration and would prevent wholesale frauds in elections, had been introduced by Elmer Schnackenberg, Chicago Republican, one of the leaders in the filibuster and one of the most active sales tax opponents.

The bill was taken away from the committee in which the Democrats had sought to bury it, which

Oscar Coss, Well Known Dairyman, Dropped Dead at His Home Wednesday Afternoon; Was Alone in House

Oscar Coss of this city, one of the best known dairyman in this section, died suddenly yesterday afternoon at his home, 112 West Everett St., the victim of a sudden heart attack. He was engaged in making out a report at the office in the dairy building when he went to his home to obtain a record book shortly after 2 o'clock.

Mrs. Ethel Messner, bookkeeper noted his absence about 2:30 and went to the residence where she called several times and receiving no response went into the house to investigate. She discovered the body lying on the floor of the bath room and immediately summoned a physician and Chief of Police J. D. Van Bibber. The body was removed to the Jones funeral home where Coroner Frank M. Banker

RESUMPTION OF FEDERAL AID IN ILLINOIS HINTED

Horner Will Ask Hopkins for Help at Conference in Cleveland

Chicago, May 23.—(AP)—Roughly said Dunham depends on a conference dependent upon dwindling local funds, upon charity or upon their neighbors today—without hope that regular relief will be resumed until Saturday.

Reports that the Federal government planned to step into the Illinois crisis immediately brought a statement from Robert J. Dunham, chairman of the Illinois Emergency Relief Commission, that the commission has "no official assurance" this will be done.

The Federal government's action, 1,000,000 relief clients in Illinois once in Cleveland tomorrow between Governor Henry Horner and Harry Hopkins, Federal emergency relief administrator. The governor will ask Hopkins to relent on the PERA's earlier stand that no government funds would be supplied until the state contributes \$3,000,000 a month.

Tax Effective July 1 While the state legislature yesterday passed a tax bill to raise the required amount, it does not become effective until July 1.

Dunham indicated that relief would be resumed, but did not say so directly. After conferring with Howard O. Hunter, Hopkins' regional representative, Dunham said:

"We will not know until after the Cleveland conference tomorrow to what extent we shall be able to resume relief operations.

"Questions to be discussed in the conference are complicated. For instance, Federal funds earmarked for rural rehabilitation and other projects have been withdrawn to supply food. As a result, this program is shot full of holes. This is

OREGON TROOPS READY TO MOVE TO STRIKE AREA

Striking Lumber Men Threaten Violence at Forest Grove

Salem, Ore., May 23.—(AP)—Governor Charles H. Martin today ordered the Oregon National Guard "be held in readiness" to proceed at once, if necessary, to the scene of the labor trouble at the Stimson Lumber Company mill near Forest Grove.

Forest Grove, Ore., May 23.—(AP)—Fifty-five special deputies equipped with sawed-off shotguns and other riot paraphernalia stood guard today over the \$800,000 Stimson sawmill ten miles south of here while striking lumber workers gathered for the avowed purpose of halting the mill's operations.

Two men were reported beaten: C. V. McMonagle, Portland newspaper photographer, and Ernst Schmidt, mill worker.

It was estimated the strike pickets numbered 400. They declared they would not permit mill employees to enter their premises.

The mill closed May 6 when pickets threatened the 200 employees, many of whom live on nearby farms. On Monday operations were resumed after the workers voted to return if the mill afforded them protection from pickets. Sheriff Connell and Governor Martin assured this protection.

Little New To Say Thomas conceded "there is very little new to say of the necessity or desirability for payment of the bonus now."

Pointing out that the dollar already had been "devalued" by 40 percent, Thomas declared "it is doubtful that the dollars they (the veterans) would receive in 1945 would have even the buying power they now have."

"We have now reached that point in the depression," the trimly dressed Oklahoma said, "where we have uncontrolled expansion in bonds."

Replying to the president's statement in his veto message that payment of the bonus now would remove the insurance protection until maturity in 1945, Thomas asserted that 3,900,000 already had borrowed money on their certificates and in 1945 the interest would have eaten up all but about \$100 of the rest each was due to receive.

Insurance Already Gone "For those 3,900,000," he said, "the insurance has been destroyed already."

Senator Dieterich (D-Ill.) who voted against the bill two weeks ago, opened debate for the administration forces. Contending the issue had been

Expect Senate to Blast Veterans' Bonus Hopes in Vote this Afternoon

Patman Bill Advocates Recognize Their Cause is Lost

BULLETIN

Washington, May 23.—(AP)—The senate today blocked enactment of the Patman inflationary bonus bill by refusing to pass the legislation over President Roosevelt's veto.

The vote to override was 54 to 40. The senate originally passed the Patman bill 55 to 33. The house yesterday voted to override the veto by 322 to 98.

The senate action killed the bill, but opened the way for a new drive for similar legislation. Cash bonus forces were ready to offer an alternate proposal as a "rider" to the pending naval appropriation bill.

Illinois' two Democratic senators, Dieterich and Lewis divided on the question. Lewis of Chicago voted to override the veto and Dieterich of Beardstown, voted to sustain.

Washington, May 23.—(AP)—As Patman bonus bill supporters conceded their campaign to override President Roosevelt's veto was lost, barring last-minute changes, Senator Borah (R-Ida) today urged the senate to pass the \$2,200,000,000 inflationary measure.

"I make no concealment, I offer no apology," he said, "for the belief that the country needs a larger volume of money, a larger volume of currency. For that reason I believe this bill is in harmony with the interests of the entire country."

As the momentous vote, expected late in the afternoon, neared, Senator Long (D-La.), who had been optimistic of over-riding the veto, predicted the administration would win by five votes.

Democratic leaders said so far as they knew they had not lost a single one of the 35 votes cast against the bill two weeks ago and predicted the final roll call would show almost 40 votes to uphold the president.

Monetary Features

Speaking calmly, Borah stressed the monetary features of the bill. "I realize and fully appreciate the value of the measure to the veterans, but I believe the effect upon the country would be only secondary in beneficial results," he said.

After Roosevelt yesterday warned the legislation would invite disastrous inflation, the house voted 322 to 98 to override the chief executive's veto.

Senator Thomas (D-Okla.), Patman bill leader, opened debate in a final desperate attempt by the cash bonus forces to muster a few additional votes.

Thomas stood near the rear of the senate chamber, with his hands on his desk, as he talked under an agreement limiting debate to 30 minutes for each senator.

He reviewed what he termed the discrepancy between what the soldiers got for fighting and the profits of civilians at home. Then he turned to the monetary phase of the bonus bill, a subject closer to his heart than any other.

Little New To Say

Thomas conceded "there is very little new to say of the necessity or desirability for payment of the bonus now."

Pointing out that the dollar already had been "devalued" by 40 percent, Thomas declared "it is doubtful that the dollars they (the veterans) would receive in 1945 would have even the buying power they now have."

PROSECUTOR TO STUDY AUDIT OF SWEITZER FUNDS

Rumors Big Shortage Has Been Found in Cook Co. Clerk's Finances

Chicago, May 23.—(AP)—State's Attorney Thomas J. Courtney announced today his office would take a hand in an investigation of the finances of the county clerk's office, held for 24 years by Robert M. Sweitzer, Chicago Democratic leader.

The county board late today will hear a special audit of the clerk's office, prepared at the order of Michael Flynn, a fellow Democrat who succeeded Sweitzer last November. Sweitzer, long the biggest vote-getter on Chicago's Democratic slate, is now county treasurer.

Meanwhile Chicago newspapers declared the audit would show a shortage of from \$380,000 to \$414,124 in one fund of the clerk's office—the tax redemption fund, consisting of money paid in by property owners in redeeming their property from tax buyers. Sweitzer declared there was no shortage, adding that he has not yet made a final turnover of funds in the office, pending the results of the audit.

Called "Serious"

Courtney, also a Democrat, said in a statement: "I have assigned Assistant State's Attorney William J. Tuohy to be present when Mr. Flynn's audit is presented to the county board. The seriousness of the matter has reached a stage which requires action. The matter will be gone into thoroughly by this office and acted upon in accordance with the facts and the law."

The audit, going back to the Chicago fire, had not yet been made public, Sweitzer said.

"There will be no shortage. I have said before, and I repeat, that I have not made a final turnover of the funds entrusted to my care. I will not make a final turnover until I see the audit, and have had an opportunity to study it."

BRITAIN OPENS DRIVE TO BUILD UP AIR FORCES

2,500 Additional Pilots Sought, Government Announces

London, May 23.—(AP)—The Air Ministry opened an enlarged recruiting station for the Royal Air Force in downtown London today as Great Britain pushed her program to meet Germany's challenge with a three fold expansion of her home defense air strength.

The ministry announced it was taking "most vigorous steps" to keep abreast of the air force expansion plans.

Ten other recruiting stations are to be established in other parts of England and in Scotland, Ulster and Wales.

The London depot was opened in a building known as "Victory House." The other stations are to be established at points from Plymouth and Portsmouth in the south to Glasgow and Belfast in the north.

Their purpose was described as being to make "the way clear for prompt handling of the applications" needed to provide 2,500 additional pilots and 20,000 skilled and unskilled workmen.

Lord Londonderry, secretary of state for air, commenting on the expansion plans made public yesterday, said they had been "clearly welcome to the nation."

Chicago Firm Given Contract for State Highway Department Office and Garage Building in This City

The Division of Highways at Springfield late yesterday afternoon awarded the contracts for the erection of the state highway office and garage building at Gedney Park Depot Ave., this city, an Associated Press special dispatch to The Telegraph announces.

The general contract was let to John Kinnare Inc., of Chicago for \$47,674; plumbing and heating to Klein & Heckman, Dixon, \$11,540; and electrical work to the George May Electrical Co. of Rockford, \$3,492.

Nine contractors submitted bids at the state architect's office in Springfield Tuesday. Two of these

MacDonald Out?

London, May 23.—(AP)—Political circles declared today the resignation of Prime Minister Ramsay MacDonald and the elevation of Stanley Baldwin, Lord President of the Council, to that post will take place not later than Whitsuntide, June 9.

Sources close to the government said a general election will most likely take place in the early autumn.

A new urgent warning by the Prime Minister's oculist that he must not continue to subject his eyes to the strain inseparable from his office, led to the widely circulated report that MacDonald's resignation is imminent.

It was believed that MacDonald will remain the government setup, taking over Baldwin's council presidency. A big shakeup of the cabinet under Baldwin, however, was forecast in order to present the strongest combination possible in the coming election.

HERO OF THREE WARS IS OUSTED

Col. Alexander E. Williams Convicted by U. S. A. Court Today

Washington, May 23.—(AP)—Col. Alexander E. Williams, former Assistant Quartermaster General of the Army, was found guilty today by an army court martial and sentenced to be dismissed from the military service.

Colonel Williams was found guilty of "soliciting and obtaining a loan of \$2,000 in connection with war department contracts from the representative of an automobile tube concern, and of giving false testimony by denying the loan before a house committee."

Colonel Williams was the first high ranking army officer to be court-martialed since the sensational trial of Brigadier General William Mitchell, former Assistant Chief of the Air Corps, by a military tribunal in Washington in December, 1925.

Mitchell was found guilty of having broken discipline by his attacks on the country's aviation policies and sentenced to five years suspension from the army, but was permitted to resign a few months later.

In Three Campaigns. Colonel Williams was graduated from West Point in 1898. He served in the Spanish-American war, the Philippine insurrection and the World War. In the latter conflict he was depot quartermaster.

WAR GAME IN PACIFIC HAS TRAGIC SIDE

Accident Occurred in Darkness of Tuesday Night, Navy Says

Aboard Battleship Pennsylvania in Mid-Pacific Fleet Maneuvers, May 23.—(AP)—Six naval fliers were killed in the crash of a giant United States navy seaplane 6P7 during fleet maneuvers in the mid-Pacific, commanding officers revealed aboard the Pennsylvania today.

Officers reported the six men apparently went down without knowing what happened when the seaplane suddenly went into a spin and crashed into the ocean.

The tragedy occurred Tuesday night, but was not revealed by the high command until today after all hope for the men aboard had been abandoned.

Victims Named. The victims and their home addresses: Lieut. Harry A. Brandenburger, executive officer of the flight squadron, Belleville, Ill. Lieut. Charles Joseph Kelly, San Francisco.

P. C. Lits, aviation chief machinists' mate, Ocean View, Va. Chief Radioman F. M. Derry (no address).

P. J. Poteau, aviation machinists' mate, first class, Wrentham, Mass. Q. A. Harpe, aviation machinists' mate, third class, Heaven, Okla.

The 6P7 was circling over her sister ship, the 6P10 which had been forced down on the heavy swells, when something went wrong and she struck the ocean with terrific speed. The 6P10 and her crew were picked up safely.

Little Picked Up. Wreckage of the 6P7 gas tank, wing tip and a seat cushion were all that remained of the ill-fated craft.

The scene of the crash was searched for more than 24 hours by destroyers, air squadrons and cruisers, but Rear Admiral Alfred W. Johnson, commanding the patrol planes, reported the quest was fruitless. He said all hope of recovering the bodies had been given up.

The fleet was ordered to return to Hawaii, where the advance units were due Saturday morning.

The 6P7 and 6P10 were in one of two squadrons of big flying patrols which flew out of Midway Tuesday to make mimic attack on Vice Admiral Harris Laning's white fleet.

One squadron flew over the advance formation of the fleet at 7 P. M. An hour and 12 minutes later the 6P10 lost the power of one engine and was forced to land on the big ocean swells.

Aiding Sister Ship. Then the 6P7 left the squadron and started circling over her disabled sister ship, sending radio signals so nearby ships could use her calls as a direction finder and proceed to the aid of the disabled craft.

For 48 minutes the 6P7 circled around, having notified the destroyer Breese and the cruiser Raleigh that the 6P10 was down and leaking. Apparently while cruising the 6P7 cut down her speed and had to fly close to the ocean's surface as the night darkened.

Apparently it suddenly went into a spin and dove into the ocean with a terrific crash as evidenced by the shattered wreckage found later.

Last Message at 9 P. M. Its last message was sent at 9 P. M., indicating she crashed into the ocean a short time later.

The Breese and the Raleigh reached the scene at 10:30 P. M., and took the 6P10 in tow. They had no fears about her sister craft, assuming she had returned to her Midway base.

A short time later it was learned the 6P7 was missing and the search by surface craft of both the black and white fleets was immediately ordered as the unprecedented war games were temporarily forgotten.

The white fleet, en route through the area, gave up its cover of darkened ships and secrecy which had been the practice throughout the six weeks maneuvers, and stabbed the with the glaring beams of searchlights.

Aircraft were ordered by Admiral Joseph M. Breese, commander in chief of

CONDITION SERIOUS

Friends in Dixon are grieved to
learn that Miss Camilla Kinsella,
who has been a patient in a Bloom-
ington hospital for the past week or
so, is reported to be in a very ser-
ious condition, grave fears being
entertained for her life. Miss Kin-
sella, grade teacher in the Dixon
schools for several years, and a
bright and charming girl, was taken
ill here and was a patient for
several days at the Katherine Shaw
Bethel hospital. She was then re-
moved in an ambulance to the
Bloomington Hospital where she
could be under the care of her own
physician, in whose care she has
been for years.

STATE WARD DEAD

state hospital patient, passed away
at the institution this morning at
5:30. Coroner Frank M. Banker,
ordered an inquisition and autopsy
which was performed at the Jones
funeral home this morning at 10
o'clock. Sheridan had figured in an
altercation with another patient,
Owen West, a few days ago, during
which he was knocked down and
kicked before the attendant on the
ward succeeded in separating the
two men.West and member of the hospital
staff testified at the inquest this
morning, the jury returning a ver-
dict finding that death was due to
epilepsy. The body was taken to
Chicago for the funeral and burial.Dr. Charles LeSage attended the

only one of the points to be dis-
cussed tomorrow."

Can Only Hope

Asked directly if Federal funds
had been pledged to carry the state
through May, Dunham said:
"We have no official assurance
on this point. We can only hope."Reports were that the Federal
government will furnish \$5,000,000
to finance regular relief for the
rest of May. What would be done
about supplying relief in June was
a matter on which no relief official
would comment.Hunter emerged from today's
conference with Illinois relief offi-
cials to make an optimistic state-
ment."I believe tomorrow's conference
in Cleveland will reach a satisfac-
tory result both for the Federal
government and for Illinois," he
said.Meanwhile, employees of the Illi-
nois commission were drawing ten-
tative allocations by which the \$5-
000,000, when and if it arrives, will
be distributed to the state's 102
counties.

SIGNATURES NEEDED

Springfield, Ill., May 23—(AP)—
The three per cent sales tax-relief
financing bill was rushed to Joliet
by a special messenger today so
that it can be signed by Lieutenant
Governor Thomas P. Donavan.Governor Horner held up his
definite arrangements to ask fed-
eral administrator Harry L. Hop-
kins for "stop-gap" relief grants
until the bill can be returned for
his own signature.Donavan left the State House
for his home at Joliet yesterday
before the senate concurred in the
house amendments to the bill in
which the state administration
hopes to qualify for immediate
federal aid for the resumption of
relief activities.The governor cannot sign a bill
before the signatures of the pre-
siding officers of the two legislative
houses have been affixed to the
enrolled document.Speaker John P. Devine signed
the bill yesterday.The three per cent sales tax
measure was expected to be re-
turned late this afternoon, ready
for the governor's signature.Horner held up his plans to meet
Hopkins at Cleveland until the
final action can be taken in order-
ing the tax increase for relief
purposes.

"WHO AM I?"

(By Dr. Joseph Fort Newton)

"**H**ERE is a story," writes a dear English friend, "one of the strangest ever told and the saddest that has come my way. Whether it is true or not I do not know—I tell it as it was told me."

"In the great war an American soldier, serving in France, was blown up by a shell. When he came to himself, he found that he had lost not only the sight of his eyes, but the use of his limbs."

"But alas, he also found that his whole past was entirely blotted out of his mind. Of his home, his parents, his boyhood, his friends, not the faintest memory remained to him. He did not know his name."

"Who he was, where he had lived, what he had done—it was all a blank. After the war he set out to comb the American continent, from one end to the other, in the hope of finding someone who knew him."

"For years he wandered—he may be wandering still—from State to State, throughout the Union, seeking to solve the mystery of his own life, trying to find some trace, some clue, as to who he is."

"In any town where there is a branch of the American Legion, he asks that a meeting of the members be called. He will not keep them long, he explains; he has just one question that he wants to ask."

"When the hall is full, he shuffles to the front of the platform, and, lifting up his sightless eyes, he asks his pathetic question, always the same question: 'Can anybody tell me who I am?'"

"God grant," my friend adds, "that by now he has found his home and family. Somehow, the story haunts me, because, in a deep sense, the wandering soldier, his mind a blank, his eyes blind, is asking everybody's question—the question man has been asking since time began."

Even so. After all, maybe the world is a far country, and each of us is a prodigal son, and we have forgotten who we are. If anybody can tell us who, or what we are, he is the one we seek.

The story may be a fiction, but

the fact is not. Each of us is a mystery to himself, and happy is the man who finds the Truth! (Copyright, 1935, by United Feature Syndicate, Inc.)

Picnic Dinner Honors Three Birthdays

A picnic dinner was enjoyed at the home of Mr. and Mrs. W. S. Boynton of Palmyra on Sunday in honor of Will Hummel of Jordan and Mrs. Geo. LePevre and John Sheaffer whose birthdays are in May. In the afternoon music and a social time occupied the hours. Those present were Mr. and Mrs. Will Hummel of Jordan and two sons, Mr. and Mrs. G. D. Reigle and family, Mr. and Mrs. J. I. Sheaffer and family, Mr. and Mrs. Walter Hummel and family, Mr. and Mrs. Geo. LePevre and family, Mr. and Mrs. Arthur Siex of Tampico; Mr. and Mrs. Robert Sheaffer, Cecil Saunders, Mr. and Mrs. J. H. Ditzler were callers in the afternoon.

Mrs. Bennett Hostess to Club Thursday

The Dixon Household club met at the home of Mrs. Edith Bennett, of Dixon on Thursday, May 16th.

The meeting was called to order by the president, and all sang "America the Beautiful." Roll call was answered by a response for Mother's Day.

Mrs. Edith Bennett played a piano solo; also sang "Let the Rest of the World Go By," of her own accompaniment.

The meeting was closed with a Bible verse by Mrs. Lydia Clymer. Quilt patterns were then exchanged by the members.

Delicious refreshments were served by the hostess. Everyone left for their homes visiting Mrs. Bennett an excellent hostess.

Meeting of Labboe Club Enjoyable

The Labboe club met this month at the home of Mrs. Lyle Shippert for the official meeting. Mrs. Don Culver and Mrs. Al Bothé were pledged to membership and receive the secret meaning of "labboe."

Amount of dues and voting rules were discussed and a number of business matters settled. Three members gave talks on the subjects, "Eggs in the Diet"; "Good Posture for Charm"; and "Effect of War on Humanity." A little notebook work was accomplished. Hot refreshments were then served by the hostess and enjoyed by all, during the pleasant social hour.

All members are urged to bring handwork to the next meeting which will be at the home of Mrs. Don Culver.

TELEGRAPH WAS MISINFORMED IN ITEM

In an item handed in at the editorial desk of the Telegraph regarding the banquet for the graduates who belong to the Christian church, it should have read "chairman of the committee for the delicious dinner was Mrs. Mabel Origenesen," instead of Mrs. Winifred Wells.

Tested RECIPES

By MRS. ALEXANDER GEORGE (FOR JADED APPETITES)

A Dinner Serving Four
Chilled Fruit Juices
Broiled Lamb Chops
Creamed New Potatoes
Buttered Asparagus
Biscuits Plum Jelly
Stuffed Tomato Salad
Strawberries, Sugared
Angel Food Cake
Coffee

Chilled Fruit Juices
1 cup pineapple juice
2-3 cup orange juice
1-2 cup grapefruit juice
1 tablespoon lemon juice
Mix and chill. Serve in small glasses.

Creamed New Potatoes
6 potatoes
2 quarts water
3 tablespoons butter
3 tablespoons flour
1 1-2 cups milk
1-4 teaspoon salt
1-4 teaspoon paprika
2 teaspoons chopped parsley
Scrub potatoes, add to water when boiling. Cover and boil until potatoes are tender when tested with fork. This will require about 20 minutes. Drain and let stand until cool enough to peel. Carefully remove skins. Keep potatoes whole. Melt butter, add flour and when blended add milk and cook until creamy sauce forms. Stir constantly. Add potatoes and seasonings. Cook 2 minutes over low fire.

Stuffed Tomato Salad
4 tomatoes
2-3 cup chopped cabbage
1-3 cup chopped celery
2 tablespoons pickle relish
4 ripe olives, chopped
2 tablespoons chopped green peppers
1-8 teaspoon salt
1-8 teaspoon paprika
1-2 cup salad dressing
Wash and peel tomatoes. Chill. Remove centers. Mix 2 tablespoons dressing with rest of ingredients. Stuff tomatoes. Arrange on lettuce and top with remaining dressing. Serve immediately.

Cooked carrot strings combined with freshly cooked peas or asparagus and topped with cheese cream sauce, makes a tasty food for the main course of simple luncheon for spring serving.

Cheese biscuits blend well with fish or fruit salads. The combination is good and can be used for informal luncheon or supper serving. A good idea for the club luncheon.

Always wash strawberries well, let drain and remove hulls. No juice will then be lost.

Annual Luncheon of M. E. Aid on Friday
The annual spring luncheon of the M. E. Aid will be held at 1:00 Friday, April 24 in the church dining room. This is the closing meeting of the year, so the officers are very anxious that there be a large attendance.

Following the luncheon there will be a business meeting with yearly reports and election of officers and then the program of the afternoon will be presented as follows:

Vocal duet—Mrs. Mary Morrill and Mrs. Ora Tice
"Around the World"—Mrs. A. N. Boyd. As the different countries are visited the dress of each will be modeled.

Vocal duet—Mrs. Morrill and Mrs. Tice
The Parade of the Frocks
This will be a demonstration by twenty ladies of the churches. These are very late models in both fabric and design, so do not fail to be present.

The devotions are in charge of Circle IV. All circle members and friends are most cordially invited.

Recital St. Mary's School Is Enjoyed

The recital of piano pupils of St. Mary's school Wednesday afternoon was thoroughly enjoyed by the many mothers and friends of the children who attended. The young musicians showed unusual interpretation and technique, all showing marked improvement since their previous recital. Following the pleasing program light refreshments were served, which climaxed the happy afternoon.

Beautiful Wedding At West Brooklyn Church This Morning

On this beautiful May morning at 8:30 o'clock an impressive wedding ceremony was solemnized at St. Mary's Catholic church in West Brooklyn, where a nuptial high mass celebrated by Reverend Father Horner, pastor, united the lives of Miss Thais Meyer, daughter of F. W. Meyer, and Oliver L. Gehant, Jr., son of Mr. and Mrs. Oliver L. Gehant, the double ring ceremony being used. The church was decorated in flowers and palms.

Mrs. George Gehant, sister of the bride, was the organist and as the bridal party approached the altar she played the Bridal Chorus from Lohengrin, and the Senior choir sang the Mass. At the conclusion of the ceremony Mrs. Gehant played Mendelssohn's Wedding March, as the recessional.

The bride was dressed in a modish white triple-sheer suit with white accessories and wore a shoulder corsage of sweet peas and American Beauty roses. She was attended by her niece, Miss Yvonne Henry of Dixon, who wore a suit in aqua blue and blue accessories with a shoulder corsage of sweet peas and Tullisander roses. The groom was attended by his cousin, Julius Gehant of West Brooklyn, both being attired in the conventional blue.

Immediately following the ceremony a wedding breakfast prepared by Mrs. Frances Morrissey, Mrs. M. J. Haas and Miss Mary Danekas was served at the home of the bride to the members of the immediate families. The home and tables were attractively decorated with yellow calendulas and spring flowers, the color scheme being carried out in yellow and white. The centerpiece on the bride's table was a three-tier wedding cake corresponding to the color scheme in yellow and white. The breakfast was served by Miss Georgene Gehant, a niece, and Miss Vera Gehant of Aurora, a close friend of the bride, and a cousin of the groom.

Both young people are popular and well-known in that vicinity, having lived there all their lives. The bride is a graduate of Dixon high school and Metropolitan business college in Aurora. She was formerly employed in Aurora but for the past few years has been at home with her father. The groom is a graduate of Amboy Township high school and since his graduation has been employed in the local bank where he has made many friends through his genial personality.

After a short honeymoon Mr. and Mrs. Gehant will return to make their home with the bride's father. For her pretty going-away costume the bride wore a traveling suit in pink with white accessories. A wide circle of friends join in extending to this estimable young couple sincere wishes for years of wedded happiness.

Happy Evening For N. R. A. Club

Mrs. Ted Marquardt and Mrs. Ralph Rhodes entertained the N. R. A. club Tuesday evening with a 6 o'clock dinner at the Eastman cafe.

After dinner a business meeting

followed by 500 and bridge was held at the home of Miss Helen Fuller. At bridge Miss Mae Thoren won head prize, Miss Helen Fuller consolation. At 500 Miss Florence Quinn won head prize and Miss Mary Vaughan consolation. Miss Marie Wilson won the door prize. After a merry evening all departed at a late hour.

Opening Day For Ladies at C. C. Most Enjoyable

Yesterday was the opening day for the ladies of the Dixon Country Club and the luncheon was attended by thirty-five members. Lilacs and tulips were the decorations for prettily appointed tables. It was a happy occasion, an auspicious opening for a successful year. Mrs. George Beier and Miss M. Rosen-thal are co-chairmen for the year.

At the close of the luncheon Mrs. H. Coss and Miss Maxine Rosen-thal gave outlines of the year's activities for both sports and the social side of the club life.

Afterward bridge was enjoyed for the afternoon, Mrs. Adolph Eichler winning the prize.

The opening dinner for the club will be held on Sunday and it is hoped all will take advantage of the opportunity and make reservations early with the new caterers, Mrs. Reynolds.

Dixon Star Members to Freeport

Last evening Mrs. George Beier, Worthy Matron of Dorothy Chapter, O. E. S., accompanied twenty-six officers and members journeyed to Freeport where Chapter 303 had a Visiting Matrons and Patrons night, which was attended by 400 guests, who greatly enjoyed the dinner and the ceremony. Mrs. Beier held the office of Worthy Matron and her officers were her escort, all having a delightful evening. The Worthy Grand Patron H. C. Boeke was the honored guest of the evening.

This evening a large number of the Star will attend Visiting Patrons and Matrons night held by the Rockford O. E. S. At this time Victor Eichler, Worthy Patron of Dixon lodge, will hold the same office at the Rockford Star and Mrs. Beier will be the Treasurer.

Friloha Class Entertained Tuesday Eve

The Misses Nadine, Verda, and Clarabelle Padgett delightfully entertained the Friloha class of the Christian church at their home Tuesday evening.

Miss Virginia Schumacher led the devotions. After the business meeting a most enjoyable social hour was spent by the girls.

Delicious refreshments were served by the hostesses after which all departed for their homes, after having spent a most enjoyable evening at the Padgett home. Rev. and Mrs. J. A. Barnett were guests for the evening.

"Modern Art" Subject of Mrs. White's Address to Class

The last meeting of the Art class of the Dixon Woman's club was held at the high school Monday afternoon, May 20. Mrs. H. A. White gave a most interesting talk on modern art.

There has been the greatest renaissance in art during the depression since the renaissance in Europe. \$126,000 was recently spent for art in one year in the United States and publicity of art has increased 300%.

For the first time most of the artists are from the middle west, among them Curry of Kansas, Grant Wood of Iowa, Charles Burchfield and Thomas Benton. Benton painted the murals in the Indiana building at the Century of Progress. He is said to have the greatest amount of technique of any modern artist. Grant Wood's paintings are most interesting. In 1929 he painted West Branch, Ia., the birthplace of Herbert Hoover. Other more recent ones are "The Threshers" and the Daughters of the American Revolution. He is painting murals now for a theater in Iowa City, Iowa.

Boardman Robinson is the greatest American mural painter. Under the Public Works of Art project about 6,000 artists were employed and the government now owns 15,000 works of art and 500 murals.

Much credit is due Mrs. E. E. Wingert, the chairman of the Art Department, for the success of the Art classes.

Dixon Friends Honor Miss Keppler

Miss Susie Keppler is spending several days in Dixon visiting with friends, she having arrived recently from her home at Los Angeles, Cal. GOVERNMENT ANNUITIES

The senate committee having in charge the social security legislation restored to the bill the provision that the secretary of labor shall establish a system whereby persons unable to buy annuity policies from private corporations may obtain them from the government. The provision for annuities of \$60 a year sounds like one for those who can not afford to purchase elsewhere, but the provision for a \$1200 annuity hardly conforms to that description.

Whatever the facts may be as to that, the question comes to mind as to what will happen after the purchasers of these annuities have paid ten years.

We recall that about ten years ago the congress of the United States provided for soldiers of the late war a certificate that was and is in effect an insurance policy, the premium of which the government pledged itself to keep up for twenty years, the usual period one pays on a private policy.

When the depression came, pressure was put upon congress for immediate payment of an obligation that was not due for about fifteen years. The certificates had not acquired any more value than an insurance certificate issued by a private company during the few years payment had been made upon it.

The congress compromised and provided that loans could be obtained on the security of these certificates, and the needy thereby might be helped. Of course, interest would have to be paid on the loans, because the money as principal was not due. Interest, too, would eat up the rest of the certificate, just as interest always does, if money is borrowed and not repaid. Originally the request had been for a cash bonus of a certain amount, but the congress had increased the amount and made the time of payment twenty years hence. So, when the loan was obtained, the holder of the certificate obtained substantially what was asked for in the first place. It was natural, though, that the holder should seek the cash of that date, as asked in the first instance, and also the sum of the deferred payments.

From that date to this the war has been on to obtain the sum of the deferred payments before they are due. Further, it is demanded that the government not only pay the cash that is not yet due, but that it cancel the interest that is accumulating.

Now, these demands and these proceedings have not been taking place because these men were soldiers alone. It has been because they are human beings, with the

same sense of acquisition possessed by other human beings; with the same attitude toward their government and its treasury as is possessed by all other persons who are using the power of their numbers to extract sums from the treasury or to compel private corporations to give over more than they have been giving.

Human nature being what it is, then, are we not warranted in asking what will be the attitude of persons who have acquired an equity in an annuity the terms of which require the purchaser to pay for twenty or twenty-five or thirty years before he can begin to draw the benefits therefrom?

When the depression comes around again, as it always has, will there be a demand upon the United States treasury for immediate payment of all the face of the policy, though it is not due for ten or fifteen years?

We know that nobody in his right mind would expect a private insurance company to do such a thing. But when we deal with the government, we immediately think of it as Santa Claus. If we have paid our money into its treasury, and if it is the guarantor of our annuity we think of the pressure we can bring upon the congressman to make the payment now.

This is not an argument against the soldiers' bonus. It is a serious discussion of the legislation now proposed, in the light of experience the congress of the United States and the president now are going through.

These social experiments are appealing but experience in New Zealand has indicated what the weight upon the government treasury eventually becomes.

Lincoln Steffens, magazine writer who led the van of the reformers in the muckracking era just as the brain trust is leading us now, says that what they failed to take into account was that human being were human.

Appeals by the Tugwells and Cohns are no stronger than those of the Steffenses and there is no reason to believe the Tugwells any brainier than the Steffenses.

A POOR EXAMPLE

As a sidelight on the efficacy of capital punishment in the matter of crime prevention, consider the recent attempt at a jail delivery at the Eastham prison farm in Texas.

Early one morning the outlaw Raymond Hamilton was electrocuted at that prison. His crime was the murder of a prison guard; a year ago or so earlier he had escaped from the prison, killing a guard in his getaway.

Something less than 48 hours after his electrocution three prisoners in this same institution made a break for freedom. There was gunfire, and one convict, one guard, and a trusty were killed.

If the electrocution of Hamilton was a deterrent to others contemplating a crime like this how was it that a similar crime took place in that same prison within two days of the date of his own execution?

THE TINIES

(READ THE STORY THEN COLOR THE PICTURE.)

As Scouty said he'd save the day by heading off the runaway, he jumped out of the wagon, much to everyone's surprise.

"Hey, look at him," cried Duncy. "He is just as scared as he can be. Our real brave pal's deserted us, before our very eyes."

Then Scouty landed on the ground and answered, as he turned around, "Just give me time. I'll stop that horse, and give you all a thrill."

"At running, he is right in trim, but just watch me keep up with him. Don't anybody else jump, or you may all take a spill."

"Gee! What is Scouty up to now?" said Goldy. "I just can't see how he expects to rescue us through racing by our side."

"Perhaps he's going to grab our nag. I hope not, though. The horse might drag the lad around and hurt him." "Let us go," another cried.

Wee Scouty kept up with the race, and then a smile spread on his face. "I have a lasso 'round my belt. I'm going to use it, now. I'll make the nag stop very quick. You'll see that I am pretty slick. I've seen it done in circuses. Just watch! I'll show you how."

The next thing that the Tinies knew, out through the air the lasso flew. "Oh, dear, he missed his aim," cried Coppy. "We're still in a fix."

"I hope he tries the stunt once more, and then much better luck's in store. It's really strange to see poor Scouty miss one of his tricks."

The next time that the brave lad threw the lasso, he exclaimed, "I knew that I could catch that crazy nag. Here's where I make him stop."

He braced himself and shouted, "Whoa!" The horse stood still. "I told you so," cried Scouty. "Gee, I'm lucky that I didn't take a flop."

Convict Witness is in Chains on Trip

East St. Louis, Ill., May 23 — (AP)—A convict in chains appeared here Wednesday in court for the eastern Illinois district, to testify against a defendant, Clarence Groes, Griffin, Ind.

Robert Richardson, inmate of the Michigan City, Ind., state prison, told the warden he would "not come back." If he made the trip here, the warden had him chained and sent an armed escort with him to the trial where he wasn't needed after all.

Gross pleaded guilty to violation of the Dyer act and was sentenced to a year and a day at Chillicothe by Judge Fred L. Wham.

ASK BILL'S DEBAT

Springfield, Ill., May 23 — (AP)—The Senate Judiciary Committee has recommended defeat of the bill reducing the powers of juvenile courts by transferring all cases not involving misdemeanors to the criminal courts. The amendment was attacked by Cook county and downstate judges and social workers.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep . . . Vigor . . . Vim
Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints a day and get rid of more than 3 pounds of waste matter, your body will take up these poisons causing serious trouble. Don't wait. Ask your druggist for DOAN'S PILLS . . . an old prescription . . . which has been used successfully by millions of kidney sufferers for over 40 years. They give happy relief and will help to wash out the 15 MILES of kidney tubes. Get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

DAILY HEALTH

SMOKING AND MOTHERS

So much nonsense has been written about the alleged evil effects of smoking, that the reporting of certain scientifically controlled findings on the effects of smoking on the unborn child must be eagerly welcomed. The findings, though not revolutionary, are rather suggestive.

To begin with, one must appreciate that nature goes to some extraordinary lengths in the protection of the unborn child.

The placenta, that is, the babe's protective covering, will allow certain substances to pass to the fetus, but will keep others out. The question studied was Does the placenta protect the fetus against whatever nicotine may be present in the blood of a smoking mother?

To determine whether nicotine permeates the placenta some criterion had to be established. It consisted of the increase in heart beat which smoking is known to effect. One scientist argued "that if the toxic products of tobacco combustion passed into the fetal circulation, some effect upon the rate of the fetal heart might be expected."

Five women were studied in this experiment and 81 tests were made. The result can be summarized as follows: 5 minutes after the cigarette smoking began, there was an increase of approximately 5 beats to the minute in the heart beat of the fetus.

Scientists are very cautious in drawing conclusions. They content themselves merely with the statement that "since the toxic effects of tobacco on young children and of nicotine contained in mother's milk on nurslings have been reported, a careful study of the newborn offspring of mothers who smoke heavily during pregnancy is indicated."

Traveling Around America

MUSIC FROM GOURDS

THE native-made Central American marimba is a much more picturesque contraption than its civilized cousin one meets up here. Its "pipes" are just the simple garden-variety of gourds carefully selected and cleverly stair-stepped to produce the various notes in the scale. The keyboard above is fashioned from "iron" wood, a native wood which when struck makes a sound as resonant as metal but deeper in tone.

The group shown here was photographed at The Mayan Inn in Chichicastenango—one of the favorite haunts of travelers taking the fortnightly cruises between New York, the Spanish Americas and California.

talent entertainment to be presented at the Compton gym in the near future. The quilt which is now on display a Chaon's store will be given away at this time. Watch for the date.

Mr. and Mrs. Henry Kehm were hostesses to a number of relatives Sunday, the occasion being the baptism by Rev. R. Y. McKelvey of their youngest grandson, Donald Swope, son of Mr. and Mrs. Wendell Swope. Those present included: Mrs. Emma Holdre of Woods-worth, Okla.; Mrs. Sarah Swope, Wilbur Swope, Chicago; Mr. and Mrs. Wendell Swope and daughter Lavilla May and sons Elroy and Donald.

Mrs. Leola Merriman and daughter Hester returned to their home

nia. During lunch native musicians stroll among the guests playing marimbas suspended from cords around their necks while the other members of their clan dressed in the colorful costumes of the Chichicastenango district entertain the visitors with native dances—some of the tunes and steps handed down from the days of the Toltecs and Mayas.

The women, who are very industrious, often bring along their hand looms and sit weaving as they sing. One might almost imagine they were giving a color interpretation of the music—their fingers flit over the strings like those of a harpist and brilliant colors roll across the warp in patterns as weird as the theme of the marimba's music.

Mr. and Mrs. Floyd Beemer enjoyed the week end with Mr. and Mrs. Bartlett Healy of Aurora.

Miss Vera Mae Pool spent Sunday with Dr. and Mrs. C. G. Pool. The Compton Oilers opened the season's league campaign against Lee Center taking the count in their favor, 11 to 0. H. Herrman and Arthur Chaon were Manager Webber's choice for the mound duty.

With the former allowing three hits in six innings and Chaon giving up the same number of cracks in the last three frames of the contest. All players were given a good

chance to show their wares during the afternoon, in preparation for the many important games on the schedule. Billie Grove, the Scarborough flash will grace Compton's center garden in the coming months. He led his teammates with two doubles and a single. The doubles were good for two runs on each occasion.

Vivian, for the opposition, was good at times in his pitching assignment for Lee Center, but lacked the necessary backing to make his delivery effective. Jones took over the assignment late in the game with no avail. Manager Webber has stated that Olaf Prestegard, widely known for his good work on Compton's team last year, will again wear the local colors. Prestegard, along with the addition of Jos. Campbell, Grove, W. Archer, Howard Herrman and H. Smith, should go a long way to offset the weakness evidenced in the records of last year's annals.

The first league game of the season at home will be played at the Carnahan park Sunday, May 26, when Troy Grove comes to town in what promises to be another thriller. Gloveski, who was the outstanding league twirler last year, will again attempt to pitch his team to victory.

WOMAN
AMBASSADOR
of GOOD WILL

SO overjoyed was Mexico when Amelia Earhart became the world's most famous woman aviator, made a nonstop flight of 1700 miles from Los Angeles almost to Mexico City, recently, that the government issued a special stamp in her honor. She had to land 60 miles from her goal when her radio and compass went dead and a bug flew in her eye.

The Earhart stamp of Mexico is that country's last airmail issue surcharged in black with the name of Amelia Earhart and the words in Mexican, "Good Will Flight, Mexico, 1935." Very few were printed. Some were distributed by lot among some 1500 philatelists and government officials, and the rest went by lot to those of the public who applied for them. A rarity already!

HUGE PLANE TO VISIT DIXON'S AIRPORT MAY 27

Giant Curtiss-Condor Ship to Spend Two Days in Dixon

The rhythmic roar of airplane motors will be heard over Dixon Monday when the giant Curtiss Condor plane arrives from Rockford with a party of sixteen Dixon citizens aboard. The big plane that is coming here is 92 ft wide, weighs 18,000 lbs. and cost \$102,500.00. It is the largest commercial land plane built in the United States and will be piloted here by Lt. Art Rigney, late of the U. S. Army, who has had over seventeen years experience as a pilot on large aircraft. H. R. Nelson is co-pilot on the big plane with Ray Hanes, also of the U. S. Air service as mechanic.

The Condor plane is equipped with two 850 HP Curtiss Conqueror motors, is heated for cold weather, ventilated for summer, is sound proof and despite the terrific roar of the motors the passengers can carry on a conversation in ordinary tones of voice.

Lt. Rigney is a nationally known aviator and will be remembered by aviation fans as the aviator who was lost in the Everglades of Florida for over thirty six hours a few years back, and who was located by one of the Goodyear blimps and rescued by the blimp dropping a rope ladder while flying slowly over him.

As the Condor is the largest plane built in this country it is expected that a record crowd will throng the Dixon airport Monday and Tuesday to inspect the big ship and take a ride in it.

OPERETTA PART OF FESTIVAL AT STATE HOSPITAL

400 Patients to Have Part in Production Friday at 2 P. M.

"The Magic Piper of Hamelin," a variation of the familiar story of the Pied Piper who lured the village's children to their deaths by the enchanting notes of his flute, will be given by a cast of Dixon State Hospital patients as part of the annual May Festival on the hospital grounds at 2 P. M. Friday.

Over four hundred patients are participating in the events of the festival, one of the highlights being the coronation of the May Queen before whom the operetta is presented. In addition to this entertainment music by the State Hospital band, and a May pole dance will be presented to "Her Majesty" enthroned on a large, beautifully decorated float. Scouts of Hospital Troop 59 will do tumbling acts and pyramid building for the Queen.

The May Festival is one of the many activities sponsored by the recreational department of the State Hospital. The size of the entertainment is exceeded only by the annual Fourth of July field day which embraces nearly everyone connected with the State Hospital.

REDS, PHILLIES IN NIGHT BALL DEBUT TONIGHT

Cincinnati, May 23.—(AP)—When the sun goes down and the moon comes up and President Roosevelt punches the button in the White House tonight, the Cincinnati Reds and the Phillies will tangle in major league's first night ball game.

Judge Kenesaw Mountain Landis, baseball's czar, will throw out the first ball.

At 8:30—barring interference from the clouds—the Reds will take their positions under the new \$50,000 lighting system and go at it in the first of seven scheduled night games here.

Club officials counted the 12,000 reservations already in, tossed a conciliatory "if" cloud-ward, and said 30,000 Queen City baseball bugs would be in the stands.

Louisville's Assn. Team to be Wrecked

Louisville, Ky., May 23.—(AP)—Every player on the Louisville American Association baseball club is for sale or trade, Manager Kenneth Penner announced today.

Following a conference between Penner, Col. W. F. Knebelkamp, president, and Capt. William Neal, general manager, Penner said the determined policy of the management would be to "wreck" the team. "From now on, only the 'survival of the fittest' will be seen on the team," Penner said, adding the management was convinced the team as it now stands cannot hope to compete successfully with its association rivals.

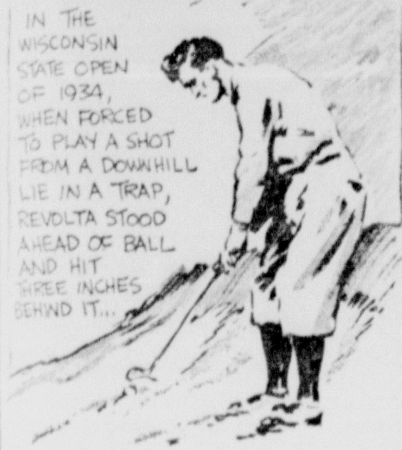

The first step in remodeling the club was taken Wednesday when Eldon McLean, a young pitcher, was sent to the Scranton Club of the New York-Pennsylvania league. Knebelkamp went to Cincinnati the same day to make overtures for a pair of Reds he thought would strengthen his lineup.

GOLF By Art Krenz

One of Johnny Revolta's greatest golf shots occurred during the Wisconsin State Open of 1934.

Coming up to the tenth hole, Johnny was one stroke behind Butch Kreiger. Putting on the pressure, Revolta then proceeded to birdie four holes in a row.

He came up to the 215-yard seventeenth with the wind against him. He decided to use a No. 1 iron, made his tee shot, and saw it land in a trap to the left of the green.

Revolta found the ball resting on a downhill lie, necessitating use of a 24-ounce blaster. He exploded out of the trap and sank the shot for a deuce, and went on to win the championship by eight strokes.

In negotiating this downhill lie shot, one of the most difficult in golf, Revolta stood in front of the ball and hit three inches behind it.

'Land Shark' Charge Hurlled to TVA Head

Washington, May 22.—(AP)—A charge of "land shark" practices was leveled at the Tennessee Valley Authority today by Representative Montet (D. La.) in a hearing before the house military committee on legislation to enlarge TVA activities.

Arthur E. Morgan, TVA chairman, had told the committee the authority had acquired two small parcels of land in the little Tennessee river basin in order to compel the Aluminum Company of America to cooperate with it in a unified program for developing the entire Tennessee basin.

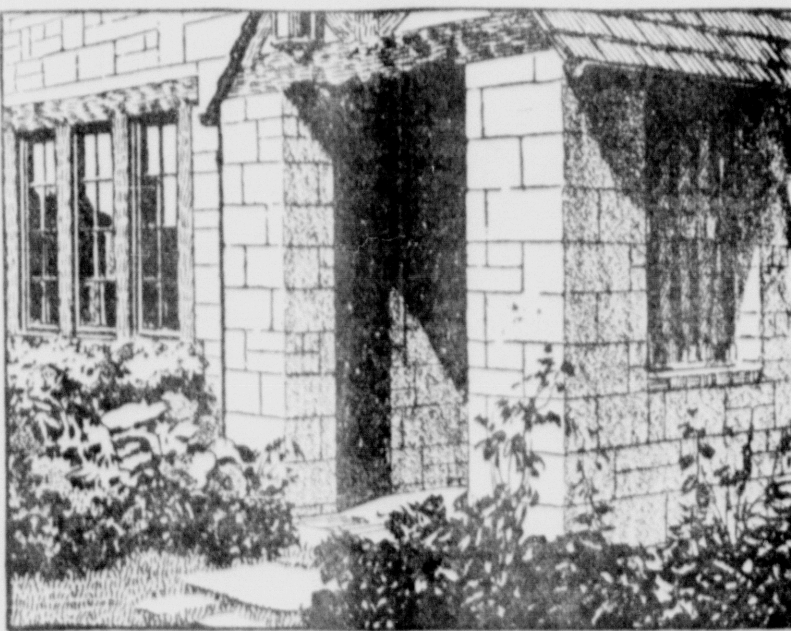

"That's what the land shark does," Montet interposed. "I hate to see one of our government agencies following that practice."

The tracts—one of 1,500 square feet and the other of 12 1-2 acres—are in an area that would be flooded by water backed up by a proposed dam for the Aluminum Co. The company already has acquired 80 per cent of the proposed reservoir.

HOPE FOR BIG RESPONSE TO FHA PROGRAM

Federal Agency Now Ready to Assist Property Owners

The Federal Housing Administration program in Dixon and Lee County is now in readiness to receive applications at the headquarters at the Chamber of Commerce building where County Chairman Fred G. Dimick has established his office and is prepared to furnish any and all information as well as to receive applications. The possibilities in Dixon and throughout the county are ripe for one of the busiest seasons in the history of the building industry, which will furnish employment for many tradesmen.

Improvements, repairs, alterations upon single-family and multiple-family dwellings, apartment buildings, stores, offices and loft buildings, factories, warehouses, farm buildings and other types of construction are included in the list of work that may be financed under the federal plan.

Who Are Eligible

Any owner of improved real property, home of business building.

Whether property is mortgaged or not.

Providing—There are no past due obligations interest, taxes, liens, etc.

Credit standing satisfactory to lending agency.

Owners must have annual income at least five times the annual payments assumed under the loan. If due to the declining condition of the neighborhood as a whole, an owner is denied a loan, he may still become eligible provided a majority of the owners of his block combine to effect a general neighborhood improvement.

Terms and Conditions

Amounts—\$100 to \$2,000 for any period up to five years—at the discretion of the financial institution. To be repaid in equal monthly installments, except in the case of farmers, who pay on crop income dates.

Cost of financing—whether in a form of interest, fees or other charges, may not exceed in total an amount equal to 5% discount per 100 of face of monthly payment note. Monthly payment notes running for periods longer than one year, and farmers' notes for other than equal monthly payments, carry the same proportionate rate. Banks and other lenders are permitted to make a lower charge if they so desire, and in any case will be able to quote exact charges on each transaction.

Security—Owners sign promissory note. No endorsers, co-makers or collateral required.

Government does not lend any money—it insures financial institutions against loss.

Lending agency are final authority on accepting and rejecting loans subject to the regulations of the administrator.

How to Proceed

Determine whether he is eligible or not for loan by consulting his bank or other local lending agency or his contractor or building supply dealer.

Decide what work is to be done. Select firms or individuals who are to do the work.

Get estimates covering costs.

Fill out property owners credit statement, attaching copy of complete estimate and submit to local lending agency, or to a contractor or building supply dealer.

Authorize the work to be done.

Upon completion, check work, according to estimate.

Sign notes.

Make payments for work done by.

Delivery of note to contractor.

OR—Delivery of note to lending agency and securing proceeds of loan with which to pay contractor.

Benefit to Dixon

The quickest way to get reemployment in private enterprise is through making property repairs and improvements. This work can begin almost as soon as it is decided upon. For every building tradesman put to work, it is estimated that on the average a family of four can be taken off the relief rolls. A modernization campaign will help greatly to relieve distress among the unemployed and by putting men to work in private enterprise, will lessen the public burden of relief.

Much necessary maintenance and repair work has been deferred in recent years due to the force of circumstances. In many cases properties have been so seriously neglected as to jeopardize their future value. The making of needed repairs not only benefits a property and increases its usefulness and value but generally improves the beauty and appearance of the city.

Modernization campaign is a worthwhile civic enterprise which appeals to all those interested in improving the condition of the community.

Dixon property is no exception to that of other cities. There are many needed repairs to be made in many homes which will not only improve the appearance but the

value of the property. The program has been launched and the necessary relief made possible. The building industry, contractors, carpenters, plumbers, sheet metal workers and painters and roofers, are ready to begin their work in the program to make Dixon homes better. Chairman Dimick is to be found at the Chamber of Commerce office daily and is eager and willing to impart any information desired toward putting the Federal Housing Administration program in effect, not only in Dixon, but throughout the county.

ASHTON NEWS

Ashton — Mrs. William Killmer was very delightfully surprised on Tuesday when her brother and wife Mr. and Mrs. Charles Ross and son Richard of Lee Center and her sister and husband, Mr. and Mrs. Frank Mynard of Amboy arrived just before noon with well filled baskets for a birthday dinner in honor of Mrs. Killmer's 74th birthday anniversary. Mr. and Mrs. F. H. Boyd and daughters, Ruth and Esther were also guests at the dinner.

Henry Neuman who has been a patient in the Rockford hospital the past four weeks, following an operation, returned to the home of his daughter and husband, Mr. and Mrs. G. C. Salzman, Saturday and is getting along very nicely.

Rev. and Mrs. J. A. Iwig and family of Harding were entertained at supper Wednesday evening at the home of Mr. and Mrs. George Henert.

Fred A. Richardson of Dixon has recently sold his Ashton residence on Douglas Ave. to Mrs. Dora Kuethle, who expects to move soon to her new home. Mr. and Mrs. Edwin Orner, present occupants, have purchased a home in Rochelle, but will continue to reside in Ashton until their Rochelle home has been remodeled.

Mrs. Leah Knapp entertained at her home on Tuesday her sister and husband, Mr. and Mrs. George Jones of Oregon.

Mr. and Mrs. George Beach have

as their guests this week Mrs. Beach's aunt, Mrs. S. L. Parvin of Kalvesta, Kansas, and a cousin of Mrs. Beach, Miss Hattie Linn of Chicago.

Henry Orville Potter, father of Mrs. Carl C. Stephan of this city passed away at his home in Dixon Friday evening after an illness of about four years. Funeral services were conducted from the late home Monday afternoon at 2 o'clock. Rev. Gilbert Stansell, pastor of the Dixon Methodist church officiating. Interment was made in the Ashton cemetery.

Miss Jean Root who, accompanied at the piano by Miss Frances Jennings, competed with 38 outstanding violin soloists of the various states in the National Music Contest held at Madison, Wis., on Saturday, was placed in the second group by the judges of the contest. Since only five soloists were included in the first and second groups, Miss Jean's standing was very high among the best student violin artists in the nation.

Those from Ashton attending the contest were: Dr. and Mrs. C. R. Root and son Allen, Miss Muriel Yenerich, Miss Dorothy Dean, Superintendent J. A. Torrens, Herman O'May, Herbert Schaller, Mrs. Lawrence Jennings and son Paul, Miss Melinda Schaefer, Mrs. P. O. Bailey and Mrs. Harry Wisman. Miss Root's violin instructor, Prof. Orville Westgate of Dixon, was also present.

Clifford Schaefer, accompanied by his brother, Floyd, and father-in-law, Mayor W. H. Ventier, went to Excelsior Springs, Mo., Monday, where Clifford will remain for medical treatment.

Mrs. Addie Gilbert entertained at her home during the week end, Mr. and Mrs. Samuel Howe of Wheaton and her son John and friend of Arlington Heights.

Mrs. Cecil Calhoun, assisted by Mrs. N. C. Calhoun, Mrs. C. P. Blekking and Mrs. Edwin Orner, were hostesses to the members of the Philathea class of the Presbyterian church on Wednesday eve-

ning, when they were delightfully entertained at the former's home.

Guests entertained at the home of Mr. and Mrs. George Garrett on Sunday were Mr. and Mrs. H. H. Hatch and son Wilbur of La-Moille.

Mr. and Mrs. Raymond Losey entertained at bridge Friday evening the twelve guests included several from Dixon.

The Good Will Circle of the M. E. church will be entertained on Tuesday evening, May 28th, at the home of Mrs. L. W. Nuss, the entertainment committee will provide a splendid program. Each member is requested to bring a plant, shrub, bulb or seeds, for the flower exchange which has been planned for the evening.

Mr. and Mrs. John Drummond have as their guests this week Mrs. Kenneth Hogan and son of near Chana.

Mrs. George Aschenbrenner was able to return to her home Monday from the Rochelle hospital where she recently submitted to an operation.

The class night program prepared by the senior class will be presented in the high school auditorium Friday evening at 7:30 o'clock.

The Farmers' Telephone Company now occupies their new quarters. All work of moving, with all lines reconnected was accomplished by midnight Saturday, in just one-half of the time allotted for the moving. The work was done by E. A. Berry, local lineman and Geo. Missman, lineman from Amboy. George W. Schafer, general manager is justly proud of the company's new home, which is a great improvement in convenience and appearance.

Glenn C. Krug who is employed in Chicago came home Saturday for a two weeks vacation at the home of his parents, Mr. and Mrs. Wesley C. Krug.

Mr. and Mrs. Milton Vaupel were guests of friends in LaGrange Sunday.

A THOUGHT FOR TODAY

NEW ECONOMY OF FAMOUS AMERICAN CAR SWEEPS WORLD MARKETS

Check shows his 1935 Dodge gives 20 miles per gallon with ordinary gas

IN foreign markets, the high cost of petrol (gas) is one of a number of reasons for Dodge increased popularity.

And here in America, too, the amazing economy and value of the 1935 Dodge is scoring new high sales records in all parts of the country.

Writing of the remarkable gas and oil savings of his 1935 Dodge, R. T. Hall, Ballinger, Texas, says: "It is easily the most outstanding car that I have ever owned from the standpoint of economy and performance,

making twenty miles or better from ordinary gasoline."

With its economy you also get new comfort in the "Airglide Ride"—new safety with Dodge all-steel body and perfected dual-cylinder hydraulic brakes. Drive the new Dodge. See for yourself what a rugged yet luxurious automobile you can get for only a few dollars more than the lowest-priced cars. Now... \$645 and up, f. o. b. factory, Detroit.

WAGNER LABOR BILL BREEDER OF DISCORDS

President of Chamber of Commerce of U. S. Attacks Measure

Washington, May 23.—(AP)—Attacking the Wagner labor relations bill, President Harper Sibley of the Chamber of Commerce of the United States, said today it would go beyond the lawful powers of the government and breed "industrial strife."

"It would promote, not allay, industrial conflicts," he said, in a statement. "Neither management nor workers could have an assurance of stability in their mutual relations."

The Wagner bill, which has been passed by the senate and sent to the house, would, among other things, set up a strengthened national labor relations board, outlaw "company" dominated unions, and provide for "majority rule" in collective bargaining.

The bill, Sibley said, "would deny to the individual workers and minority employe organizations any opportunity to negotiate with their employer." It would, he added, enable a "bare majority of employes of a unit" to obtain a closed-shop agreement, thereby compelling all the employes to "join the union or forfeit their employment."

He asserted the bill fails to protect employes against "coercion" by outside labor leaders and "would prevent an employer from having opportunity to protect his employes from the activities of racketeering or other destructive organizations."

Where Lost Girl Died in Sight of Scores

In sight of scores of homes whose windows overlook the construction project where she played in the Jackson Heights section of New York City, little Shirley Evans, 8 years old, went to her death unnoticed. Her body, backed against a foundation, was found by workers digging under police supervision. An autopsy was needed to determine whether she had been murdered and buried or was the victim of a landslide. Police are shown holding back a crowd at the scene of her death.

rather than a symbol of the union of souls with Jesus in sacrificial love and service.

It is a solemn thing to call to mind the dying of the Lord Jesus and to symbolize a union with Him so intimate that He comes into our lives in such a way that He is our sustaining power and our inspiration.

Much of our religious thought and action today is altogether too shallow. Religion is not merely a matter of doing, even though with sadness one contemplates the lack of vital Christian action on the part of those who make Christian profession.

The Christian life is a matter of being. It is linked with the life of God, with the life and death of Jesus, and with the life of that great company in the church militant and in the church triumphant who have loved, and sacrificed, and served in witnessing to the world the divine compassion and the fullness of the gospel of grace.

REPAIRS MADE ON AUTOS FOR 500 MILE RACE

Indianapolis, May 23.—(AP)—Speedway garages witnesses both rebuilding and tearing down activity today as drivers and mechanics worked swiftly to prepare for the annual 500-mile race May 30.

Speedsters that came to grief on the 2½-mile brick course, including the car in which Johnny Hamilton of Norristown, Pa., was killed Tuesday, were repaired and put

What's This? Washington Crossing the Danube?

When armies come to rivers they want to get across, they often must take to the boats. Such an extremity gave us the dramatic picture of "Washington Crossing the Delaware"—an heroic figure staunchly facing the elements while his troops crouch in the shelter of the boat's gunwales. Taking a lesson from the great American leader, Austrian troops during maneuvers practiced crossing the Danube in boats. An alert cameraman photographed this scene, which except for the very Teutonic steel helmets and the ominous modern weapons of the troops, might be a portrayal of Washington's epic journey.

back together for resumption of qualifying trials Saturday.

A reversal of this process was under way on racers that already have won positions in the starting field of 33. Parts of their motors were spread about while mechanics hunted possible defects.

Extensive repairs were in progress on the car in which Kelly Petillo of

Los Angeles dashed to a new speedway record of 121.687 miles an hour last Saturday only to be disqualified for using too much gasoline in the 25-mile run.

Petillo tried again Tuesday, but after nine laps at 116 miles an hour, a connecting rod broke and parts spilled over the track. The coast star hoped to

make a third attempt before Monday.

Nineteen positions in the starting field remain to be filled.

WEEKLY SUNDAY SCHOOL LESSON

THE LORD'S SUPPER.

Text: Matt. 26:17-30.

The International Uniform Sunday School Lesson for May 26.

By WM. E. GILROY, D. D.
Editor of Advance.

The Lord's Supper was instituted in the service in the upper room

in Jerusalem, on the eve of the crucifixion of Jesus as He partook of the Passover with His disciples.

The occasion is memorable for the intimate picture that we have of the disciples in the last great act of fellowship before their Lord's death, and for the element of tragedy, foreshadowing Calvary itself, that entered into the occasion as Jesus announced that one of His own very circle would betray Him.

Did Jesus intend to found a formal rite in the church, or was He emphasizing the sacred nature of all Christian fellowship and communion? We can never know regarding that, but the remembrance of this upper room and the record of what happened there so took hold of the life of the Church that very early the Lord's Supper, and the partaking of bread and wine in communion, became the most sacred symbol of Christian faith and fellowship.

Paul very definitely establishes this right of the Lord's Supper, and, recalling the example of Jesus

in which He gave the bread and wine to the disciples as symbols of His body and blood, he represents the act of communion in the Lord's Supper as one of remembrance, showing or making manifest, the Lord's death until He come.

The disciples believed that in that act, embodying the spirit of Jesus, they were experiencing His real presence and it is no wonder that this conviction became so strong that it developed into doctrines of transubstantiation and consubstantiation. The Christians of today are not likely to be involved in the sharp and intense controversies that the historic church has witnessed concerning these matters. One may venture the belief that the presence of Jesus in the communion of Christians and in the Lord's Supper is not a formal or mechanical matter.

The Lord could hardly be present among those who were not met in the depth of sincerity and faith, and He could hardly be absent, concerning His own promises, from the communion of those who in deep simplicity of faith and earnestness were met in His name.

Too often the rite of the Lord's Supper in the Church has been a formal thing—a symbol of the fact of fellowship in the Church

WILFUL WASTE NOW TORTURES "NEW DEALERS"

(Continued from Page 1)

ernment as they see it.

Accuses the Tugwellians

"Tugwell et al. say that the American people have become linked and bound to the Constitution of the United States to such an extent that they are not capable of free thought. Their method is hunker, want and beggary, to break the bonds of the Constitution.

"Private industry is the only thing that can bring back recovery and prosperity. You ask, 'What do I advocate?' There are two things that will start solid recovery. One is to stop the NRA immediately. Millions will then come out of their shells and quit being scared to death. The next thing is these contracts for curtailing production. The land has gone to weeds. Let the government pay up the contracts out of the four billions for recovery.

"The soldiers never raised much sand about the bonus until they thought all the money was going to be spent in Washington. Pay the bonus now! Let's pay our debts before we build swimming pools for elephants in California, and send a survey out to the Mediterranean. Pay the bonus out of the \$4,880,000, 000 appropriated. If this money is thrown away and used as a political bait in this country the government of our fathers will go on the rocks.

"Cut taxes and pay debts. Rather a novel doctrine, isn't it? It has been done in Georgia. It can be accomplished by every other state in the Union and by the federal government."

Processing Tax Assailed

Gov. Talmadge had many facts and figures to back up his denunciation of the processing tax, which he called a tariff in reverse, a penalty on the whole people.

"The processing tax," he said, "has caused the importation of Japanese bleached cotton cloth to increase during the first three months of 1935 to 56 per cent more than the total importations of the same good for the year 1934. This is a terrible fact for use to face.

"One of the most astonishing increases in importations is in live stock feed. In March, 1934, only 90,760 pounds of cottonseed meal and cake were imported, while in March, 1935, 9,336,380 pounds were imported. I know that we are getting some cottonseed meal in Georgia from cotton grown in China and shipped through Japan."

He gave figures on the increase in lard cake and meal and soy bean oil imports.

"They killed off cattle, shipped them around over the country, and allowed millions of them to starve," he said. "What happened? Butcher importations for March of last year were 29,329 pounds. This year they amounted to 4,928,552 pounds. During the first three months of 1935

imports of butter reached the total of 8,538,140 pounds.

Furnishing Jobs for Foreigners

"We were told from Washington to kill off the cows, slack up work, and yet at the same time we were furnishing jobs to millions of foreigners, and sending the money out of this country to get something to eat for our own people, a large portion of which went to the people on relief.

"What happened to corn? In March, 1934, 16,882 bushels of corn from foreign markets came to the American shores. In March, 1935, 3,304,523 bushels of corn were imported. During the first three months of 1935, 7,017,558 bushels of corn were brought in. Foreigners pulled this corn, sacked it and shipped it. We are sending millions of dollars away for corn that we could grow here."

He gave similar figures on oats and meat.

"During the first three months of this year," he said, "we imported 24,600,000 pounds of meat to keep our people from starving, while they were killing the pigs, shooting down the cows, and paying processing taxes. We have to go abroad and bring even canned meat to this country."

Goats and Sheep Destroyed

"Not only this. They threw goats and sheep over the mountains in Wyoming and California, and when the hungry people went down to the foot of the mountain to retrieve some of the carcasses that had not been torn to pieces by the crags, they were run off by the trained welfare workers. These sheep and goats were allowed to lie there at the foot of the mountains to rot and be only food for the coyotes and buzzards.

"Can we stand the continual drain of billions of dollars out of our country to buy food and clothing, when the policy in Washington is making us cut down production here? Right here in America we can produce enough meat to feed one-quarter of the globe. When you read these figures you will agree that it is no wonder that our relief rolls have grown to one-fifth of the population of this country."

Allegation Communism is Taught in Churches Arouses Members

Decatur, Ill., May 23—(AP)—Aroused by charges that Communism is being taught in Baptist churches, members of the Riverside Baptist church of Decatur will vote tonight to decide whether they will withdraw from the Northern Baptist conference.

In recent sermons the Rev. E. C. Shute, pastor, has attacked what he said he considered Communist propaganda in his denomination.

Spiritual teachings have been usurped and Communist beliefs have affected the secular lives of the members, he alleged, as a result of Baptist church in the northern states admitting modernist doctrines, which, he asserted, tend to undermine fundamental credences of his faith.

Mr. Shute said several Baptist churches already have withdrawn from the conference, among them the Belden Avenue Baptist church of Chicago and groups in New York, Wisconsin and Indiana.

Old Faith Rejected

Contending the modernist leanings began in 1922, Mr. Shute said that years of efforts to restore the old faith of the church had been unsuccessful. He claimed an investigation disclosed modernists are especially numerous in the missionary field.

He alleged evolution is being taught in some Baptist colleges, that many Baptist preachers have adopted the modernist idea that Christ's death was unnecessary for the salvation of humanity, and that some Baptist leaders have rejected the belief in the virgin birth and the conception that Christ will appear a second time.

Mr. Shute said the modernist-fundamentalist conflict was expected to reach a crisis at the Baptist meeting at Denver next month. He charged that a policy which he said the modernists have proposed would, if adopted, place the Baptists on record in favor of Communism.

BRETHREN CHURCH

A delegation of twenty from the local Brethren church attended the revival meeting now in progress at the Freeport Brethren church Tuesday night. The meeting is being conducted by the Rev. and Mrs. Oliver Austin prominent and well-known evangelist, having held many evangelistic campaigns among Brethren churches than any other evangelists. The delegation from Dixon added much inspiration to the service and their presence was much appreciated.

Billy Thompson sang a solo. Those attending from Dixon were: Mr. and Mrs. Marling Baker, Mr. and Mrs. Claire Baker and family, Ada Underwood, Mary Underwood, Mrs. Edward Myers, Mr. and Mrs. Edward Holbrook, Hazel Nelson, Marie Thompson, Billy Thompson, Rev. and Mrs. W. E. Thompson.

The Loyalty Endeavor Crusade which is being followed by the church through the summer months is already proving a blessing to the church. The major aim of the movement is loyalty, attendance, cooperation and support, but in detail it carries out the thought of evangelism, missions, temperance and Christian education. Dr. J. Frank Young spoke at the Brethren church last night on the subject of "Evangelism" to an audience who were interested in the outlook of evangelism. The speaker briefly referred to the world confusion in the political, social and economic conditions as related to man's needs and welfare and they are not satisfactory. The speaker soon presented a way based on honesty, unselfishness, and righteousness as a basis on which to build a world wide revival for Jesus Christ. This was held up as a successful way for a world that is in confusion and turmoil to take. The message encouraged hope, faith and love which in every generation has been blessed by God, and without His blessings no nation can succeed. It was pointed out that the Bible tells of many revival efforts which led the people to a closer walk with God and resulted in happiness, joy and prosperity. King David cried out, "Will thou revive us again, that they people may rejoice in thee?" The attention of the attentive audience was called to a declaration made by God, "If my people, which are called by my name, shall humble themselves and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sins, and will heal their land."

Mr. Young closed pleading for a whole-hearted service to the kingdom of God with the assurance that God will bless, lead and guide those who trust Him and obey Him.

HURLERS FAIL TO DEVELOP CLUB POWER

Earnshaw is Driven From Mound By Cincy Reds

By HUGH S. FULLERTON, JR.
(Associated Press Sports Writer)

The theory behind a number of recent outstanding deals in "ivory," particularly the brand that performs on the pitching mound, has been to add strength to the clubs concerned, but so far very little improvement has been in evidence.

Two players who figured in important transactions, George Earnshaw and George Egan, made their initial efforts for their new clubs yesterday. They met the same fate that came to others, including Carl Fischer, Russ Van Atta and Phil Collins—a lot of trouble.

Earnshaw managed to scatter eleven Detroit hits in his first start for Philadelphia, but the Athletics didn't get him the runs and he went down 4 to 1. His first pitch was turned into a homer by Pete Fox and the Tigers scored again in the fourth and twice in the sixth while Elden Auker pitched a steady game.

In Hot Water

Earnshaw, in hot water from the start because of his own wildness, finally was driven out by a three-run Cincinnati burst in the fifth and the Dodgers went down 5 to 4 although they hammered St. Johnson and Don Brennan for four runs in the seventh.

Van Atta, sold by the Yankees to the Browns and Fischer, sold by Detroit to the White Sox, both were beaten in their first starts with their new clubs while Collins won for the Cardinals although he failed to finish against his old club, the Phillies.

Of the others who have been traded since April only Walter Stewart, now with Cleveland, has turned in an outstanding performance, an eleven-inning shutout of the Yankees Sunday.

As a result of Earnshaw's defeat yesterday, the Giants increased their National League lead to 2½ games with a 5 to 2 victory over the Pirates and their mound sensation, Cy Blanton. Roy Parmelee got the better of Blanton on the hill, giving only five hits.

Fell To Last Place

The other National League game saw the Phillies drop into a last-place tie with the Braves as they came out on the short end of a 3-2 score against the Cardinals with ancient Jesse Haines doing the elbowing. Boston was rained out at Chicago.

The Yankees registered the day's big gain in a series of American League slugfest matches. They put together two four-run innings against young Joe Vance and trounced the league-leading White Sox 13 to 5 to move into second place.

The victory put them a half game ahead of Cleveland, whose pitchers failed to hold a five-run lead against the Red Sox and took a 12 to 5 trimming. The Sox scored six runs in the fifth and another six in the eighth with Manager Joe Cronin leading at the plate.

The Senators kept pace with Detroit's fifth-place club, just a half game behind, by turning back the cellar-dwelling Browns 5 to 2.

Yesterday's Stars

By the Associated Press.

LeRoy Parmelee, Giants—Held Pirates to five hits.

Jesse Haines, Cardinals—Allowed Phillies eight to scattered hits and did not issue a pass.

Johnny Allen, Yankees—Gave White Sox seven hits and struck out eight.

Mickey Cochrane, Tigers—Connected with double and two singles to help beat Athletics.

Earl Whitehall, Senators—Let Browns down with eight well-spaced blows.

Bill Campbell, Reds—Drove in two of Cincinnati's five runs in defeating Dodgers and George Earnshaw.

Joe Cronin, Red Sox—Pounded out homer and a double to drive in four runs against Indians.

Newsom modestly figures he may isn't so much if it helps win a pennant.

he is the difference between a faltering ball club and a pennant winner. "Say, this crew is only four and one-half games back now, and with another good pitcher like me it'll be right up there," he informs the club house hangers-on.

This six-foot-three-inch south-easter, whose unorthodox windup resembles a side-show Indian club swinger's act, admits to the fastest ball in the American League and feels confident of winning "at least fifteen and maybe twenty games" this season.

CHICAGO CUBS HINT SELLING KLEIN TO PHILS

Want Reasonably Good Player in Return

Chicago, May 23.—(AP)—Don't be surprised if you pick up your favorite sports section one of these rainy days and learn that Charles Herbert "Chuck" Klein has gone back to his land of milk, honey and home runs—the Philadelphia National ball park.

Or, possibly, he may go to the New York Giants, who play their home games at the Polo Grounds where Chuck's favorite target, the right field wall, is only 257½ feet away from home plate.

That Klein may be traded or sold by the Chicago Cubs was learned on good authority today. As told to the Associated Press, the Cubs are very willing to part with the slugger who isn't slugging for them, only they want some reasonably good player in return for him. It is no secret that the Phillies would welcome Chuck's return, as he is a popular player in Philadelphia. The Giants also were reported as interested, but insisted on driving a hard bargain.

Was Disappointing.

Klein, who the Cubs obtained for a big bundle of cash in the fall of 1933, has been a big disappointment here. Except for an early season flurry last year, his big bat failed to produce expected results. He finished the 1934 season with a .300 batting average, playing in only 115 games. This season, he has gone from bad to worse. With a batting average of only .235, he was assigned to the bench today as Vice-President-Manager Charlie Grimm shook up his lineup and batting order to obtain more punch. It was quite a let down for the man who won the National League batting championship in 1933.

Grimm sent Freddie Lindstrom as well as Klein to the bench for the opening game of the series with the league leading Giants. Lindstrom, hitting only .250, had an excuse, as a stone bruise on his left hand has been bothering him. Stanley Hack replaced Lindstrom at third and is third in the batting order. Tuck Statinback took Klein's outfield position and will bat fifth behind Gabby Hartnett.

War Is Declared

St. Louis, May 23.—(AP)—The Phillies have declared war on Dizzy and Daffy Dean.

As the team left last night for Cincinnati, Manager Jimmy Wilson made the threat of open hostilities against the Cardinals' ace brother pitchers. It was an aftermath of Tuesday's mammoth shadow-boxing and baseball-throwing carnival.

"It's getting so that you can't get a hit off either of the Deans without getting bearded the next time up," Wilson lamented.

"They started throwing at us down south, and Paul resumed it in Philadelphia less than two weeks ago and pulled the same stuff Tuesday."

"Their bean-ball pitching and general attitude toward us bring to mind the last week of the 1934 season. We knocked the Giants off twice and at the finish the Cards were two games in front. Now we've got to dodge bean balls when we face the Deans. Well, the Phils have declared war on the Deans, and there's no foolin' about it."

ITALIAN TEAM MEETS DEFEAT BY AMERICANS

Pack Led U. S. Team To Smashing Win With Kayo

Chicago, May 23.—(AP)—Italy's amateur boxing champions nursed bruised jaws today as a result of coming in contact with knockout blows delivered by Chicago's Golden Glove titleholders in the fifth international boxing series last night.

Before a record-breaking crowd of 24,000 spectators, largest ever to witness an indoor boxing program, the Italians went down to defeat, five bouts to three, in the Chicago stadium. The paid attendance was 23,256.

The game Italians kept the result in doubt until the final bout. They might have tied it, as the Germans did in 1932, but Lorenzo Pack, giant Negro heavyweight from Detroit, made victory for the Americans certain by knocking out Angelo Saruggia, a truck driver from Varese, Italy. With a terrific right punch to the jaw, Pack, 18-year-old, automobile worker, knocked the big Italian sprawling in the second round.

The most impressive battle was a one-round victory Clinton Bridges, 21-year-old Negro automobile worker also from Detroit, scored over Mario Annibali, light heavyweight from Rome. Bridges, credited with having twice defeated Joe Louis, now a heavyweight contender, during their amateur days, knocked Annibali over the middle rope of the ring with a short right to the chin. He landed outside the ropes at the edge of the ring, and when he was revived he tore into Bridges, attempting to continue the fight. Four men had to restrain him on the floor.

St. Anne's-on-the-Sea, Eng., May 23.—(AP)—W. Lawson Little, Jr., of San Francisco drew a step closer to retaining the British Amateur golf championship this morning when he defeated H. G. McCallum, a dogged Scottish challenger, 2 and 1, in a fourth round match.

Robert Sweeney, formerly of New York and now living in London, vanquished Brig. General A. C. Critchley of the Royal and Ancient club, 6 and 4, and qualified for the fifth round.

Princeton Races Dixon Trackmen This Afternoon

The postponed dual track and field meet between Princeton high and Dixon is being held at 3:45 P. M. today on the Dixon field. A call from Princeton Wednesday, National Athletic Director A. C. Bowers of that school's decision to run off the meet this afternoon.

The meet was originally booked to be held a couple of weeks ago but was postponed when cold, rainy weather blocked the contest. The meet is Dixon's first competition with the Princetonians since they were admitted to the N. C. I. conference at the recent meeting, but the results will have no bearing on the league standings because Princeton's membership does not become effective until April, 1936.

The native favorites, their elimination virtually cleared the defending champion's path to the final provided he doesn't undergo a

a form reversal similar to Monday's.

Two other Americans both hailing from Greenwich, Conn.—Richard M. (Dick) Chapman and Dan R. Topping—kept up with the champion's pace while Captain A. Bullock-Webster of Monterey, Calif., fell by the wayside.

Chapman, who is being seriously reckoned as a prospect for the final, overpowered Olav Austrang of England, 6 and 4, and topping accounted for Edward Kyle, a Briton, one up.

Bullock-Webster was eliminated by Morton Dykes, 4 and 2.

Black Beaten.
Little's fifth round opponent this afternoon was J. L. Black, a Welshman from Rhos-on-the-Sea; Chapman was matched against Eric Fiddian, conqueror of T. Sufferin Tailer, Jr., yesterday, and Topping met G. L. Q. Henriques.

Henriques gained the fifth round by springing his second surprise in as many days. Yesterday he disposed of the favored Leonard Crawley and this morning he took the measure of the third betting choice, Leslie Garnett, by the score of 4 and 2.

Rochelle Enters Rock Valley Net Loop; Plays Soon

Rochelle tennis men will compete in the Rock River Valley tennis league, the opening match being with Freeport Sunday.

Pairings will be made Friday night when the team gets together for its first practice session. This will be the first chance the citizenry will have a chance to see the team in action. The addition of Emmet Lowery to the squad is reported as having materially strengthened the team.

The Rochelle club will journey to Beloit for a match Sunday, June 2.

Little in 556 444 543—40; McCallum in 444 465 543—41.

NEWSOM SURE HE'S VALUED BY SENATORS

Washington, May 23.—(AP)—Louis (Buck) Newsom, eccentric right handed hurler with a zippy fast ball and a personality as quiet as a circus callopie, credits the Washington Senators with a shrewd piece of business in buying him from St. Louis.

"Fifty thousand bucks is a good piece of change," he agreed, "but it
